

Description of the Campus Frescati area

At Stockholm University, there are conference activities in four locations: Aula Magna, Score, Accelerator and Södra huset E. These can all be found on Campus Frescati, the main campus of Stockholm University.

Coming from the underground (“T-bana”, stop “Universitetet”) or the bus (bus 50 from Odenplan, get off at “Universitetet” or bus 670 from Tekniska högskolan, get off at “Universitetet Norra”), walk straight ahead to a sculpture with a large sphere on top of squares.

In front of you, there is a meadow. Take the left path, across the lawn with the apple trees towards the brick buildings, to get to Accelerator.

In the other direction, turning to your right, you will see an older brick building on a hill. This is Score. Take the stairs up the hill to get there.

To get to Aula Magna, follow the path straight ahead, on the righthand side of the meadow. After passing under the large chestnut trees, you will see the main entrance to Aula Magna to your right, up the stairs.

To get to Södra Huset (“The Southern House”), continue the path past Aula Magna, and past another building (“Allhuset”), then turn right towards the light blue high-rises. This is Södra Huset.

Find building E by walking alongside this building until you come to the entrance marked with the corresponding letter (FED). It is located at the end.

It is also possible to walk to Campus Frescati from KTH. You will then enter the campus from the opposite direction, seeing the light blue “Södra huset” first. You can enter the building from this direction from the A entrance, and then walk inside the building to the E part.

To get to Aula Magna and Score from this direction, walk past Södra huset up the stairs to the left of the building. Walk straight ahead, passing Allhuset (a large building) on your left, towards the meadow. Do not cross the meadow, instead, take a left after Allhuset, and follow the path that runs alongside the meadow. This will lead you to Aula Magna and Score (both are to be found on the left hand side of the path).
